Marketing, Management & Entrepreneurship	Technology & Engineering
Mathematics	World Languages
Music Education	

About the Wisconsin Academic Standards:

The Wisconsin Academic Standards specify what students should know and be able to do in the classroom. They serve as goals for teaching and learning.

Setting high standards enables students, parents, educators, and citizens to know what students should have learned at a given point in time. Clear statements about what students must know and be able to do are essential to ensure that our schools offer opportunities to acquire the knowledge and skills necessary for success.

Adopted: 07/10/17

Update for 2018/19: 08/09/18
